Today's War Summary

Bulgarian troops have driven an opposing force across the Vardar river in southern Serbia, south of Stranitsa, the German war office announced today.

Bulgarian forces have had another success farther north, having reached and occupied Kumanovo, also on the Nish-Salonika line, about thirty miles south of Aranya, where they had previously cut the line about eighteen miles northwest of Uskub.

To the north, Austro-German forces are pressing on; progress to new lines of both General von Konev's troops and those of General von Gallwitz being reported.

On the Russian front, repulse by the Germans of attacks in the Rumanovitch region are claimed, as is a victory over the Russians by General von Linemang's troops west of Carpatovsk.

An important advance for the Italian armies invading Austria is reported from Verona, the official news stating that in one district in the Trentino they have penetrated more than seven miles north of the latitude of the city of Trento.

Paris records the repulse of attacks by the Germans in the vicinity of Soissons and in the valley of the Champagne there has been a violent artillery duel.

Greece, according to a London newspaper report, has rejected Great Britain's offer to cede the island of Cyprus in exchange for Greek participation in the war on the side of the allies.

Despite the odds against them, the Serbians are not discouraged according to British and French officials who have been at the Serbian front in the north, a Balkan dispatch states.

MELLEN ADMITS LARGE SALARY PAID TO KEEP HIM OUT OF THE WAY

Details of Amazing High Finance Record of New Haven Railroad Rapidly Developing in Court.

CORSAIR AGREEMENT SMASHED THEM ALL

Wall Street Rulers Passed Word to All Competing Lines That They Must Be Good or Be Smashed.

New York, Oct. 22.—Charles R. Mellen was expected to finish today the first part of his testimony concerning the consolidation of the New Haven railroad system which he is making in the trial of charge of his former associates on charges of conspiracy to monopolize railroad traffic.

Mr. Mellen has revealed that he was engaged at a large salary by the New Haven to do nothing as vice president because he had caused that road to be sold as several millions of the New York and New England railroad.

He described the rivalry between the Boston and Maine and the New Haven which led up to the "Corsair agreement" in which those two roads agreed to keep out of each other's territory.

Mr. Mellen showed the witness a copy of the so-called Corsair agreement, which divided the transportation traffic of New England between the New Haven and the Boston and Maine on the Boston and Maine line.

The witness identified the signatures of Mr. Morgan and other directors who signed the agreement, and the minutes of the New Haven directors' meeting which described the successful negotiations in 1892 of a lease of the New York, Providence and Boston line, one of the New Haven's early competitors, through its steamship competition with New York.

The lease carried with it a contract under which stock of the New York, Providence and Boston was to be subsequently exchanged for New Haven stock, share for share, and the lease cancelled.

Two years previous, other minutes revealed, the New Haven rejected a similar proposition.

The New Haven stock, in order to provide for the exchange with the Providence line shares, was increased by \$5,000,000, according to other minutes which the witness identified.

This action was taken in May, 1892, and later that year it was shown that the New Haven also acquired another independent line, the Providence and Worcester.

The witness then identified records revealing that the directors, including Mr. Rockefeller, voted in April, 1893, to withdraw all joint business with the New York and New England if the New England should open a proposed through line connecting by water with New York, similar action the records showed, New Haven took against the Boston and Maine if another through connection was contemplated.

Washington, Oct. 22.—Secretary Lammie had to report today a letter from Ambassador Page of American minister Whitehall on the resignation of Miss Edith Cavell, the British nurse, by German military authorities at Brussels.

So far as the Washington government is concerned the case appears closed, every diplomatic effort apparently having been exhausted previous to the execution.

Austrian Pushed Englishman to His Death

Brother in Austrian Army Killed in War; In Revenge Flaragrady Shoves George Gray Into Machinery.

Denver, Oct. 22.—George Flaragrady, an Austrian, was arrested here today charged with murder in connection with the death of George Gray, an Englishman, who was crushed in the machinery at the Colorado & Southern railroad shops here August 25.

According to the police, Flaragrady heard that a brother in the Austrian army had been killed and in revenge pushed Gray into the machinery. Gray is said to belong to a wealthy English family.

Flaragrady was arrested on a story told by Robert Black, who claimed to be an eye witness. Both men were taken into custody. At police headquarters Black repeated his accusation before Flaragrady, who denied knowledge of the affair.

Gray had been employed as a minor boss at the shops for six months. He and Flaragrady had quarreled frequently over the war. The Austrian's bitterness became intense when he was told that an Englishman had killed his brother in the European war.

Black told the district attorney that on August 25 Gray was operating a powerful drill press, boring holes through steel. Flaragrady, according to Black, seized Gray's sleeve and shouting "Do you know the Austrians kill the English?" dragged the Englishman's arm into the drill press. Then Black said, the Austrian pushed Gray's head into the machine, the revolving drills crushed the head, killing Gray instantly.

Flaragrady was arrested late today and taken to the city jail to await the filing of formal charges. Black was held in custody as a material witness.

According to his story as told by the prosecutor, Black saw every detail of the alleged crime. He said he was so horror-stricken that he was afraid to reveal it to anyone, and after the coroner's jury had returned a verdict of accidental death, he still kept his secret, fearing that he would be punished for his previous silence.

Los Angeles, Oct. 22.—Venustiano Carranza, head of the de facto government in Mexico, is going to encourage the American game of baseball in the republic as a substitute for bull fights and other diversions along the border, according to Adolfo Carrillo, his confidant agent here.

Carranza, Carrillo said, will shut down on border inquisitions as practiced at Juarez, Mexicali, Tijuana and other border towns, and will not recognize race tracks or Monte Carlo or concessions thereof.

Four American game of baseball will be encouraged instead," said the agent.

Witchcraft Works Awful Slaughter In Africa

As Many Killed Every Year as Were Killed in First Year of War, Says Missionary.

Denver, Oct. 22.—It is probable that as many people are killed in Africa every year as a result of witchcraft as were killed in all the armies of Europe during the first year of the present war, was one of the striking statements made by Dr. J. E. Crowther of the board of missions of the Methodist Episcopal church in New York by an address at the National Laymen's missionary convention here today.

Every dealer in El Paso must supply the customs house with an inventory of arms and ammunition on hand, expected, sold, or sent out, with details of destination.

Shipments of meats out of Juarez to the United States markets is stopped and the Pioneer Packing company of El Paso, contractors for the Juarez packing house, have been ordered to close down and refuse shipments from the Juarez plant, without redress of any kind.

Cattle shipments will be scrutinized, particularly unbranded calves. All carcasses of hides will be inspected for brands of American and foreign ownership. Hours of importation and exportation are limited to daylight. Ammunition found on the way to Mexico will subject the carrier to arrest, whether in carload or rounds for a single rifle.

El Paso, Texas, Oct. 22.—The operation of the American Smelter and Refining company plant at Chihuahua City by Governor Avila of that state is pending, according to advice from Chihuahua today. It is confirmed that a commission from the governor inspected the plant for the purpose of taking it over shortly after Governor Avila denied that he had issued an order confiscating the plant for failure to operate on "government ore" beginning October 15.

One hundred carloads of coke intended for the smelter were held up here today by customs officials.

Carothers Arrives at Douglas on Way East

Douglas, Ariz., Oct. 22.—George C. Carothers, an agent of the state department, who until recently spent most of his time at the headquarters of General Francisco Villa, arrived here today. It was said here that an interview had been arranged with General R. Elias Galles, Carranza commander in Sonora.

The Carranza command which evacuated Naco yesterday has proceeded to Aravaconchi pass, according to reports received here today, to prevent Villa forces occupying that outlet westward. General Urquiza, the Yaqui chief, who commands the force that occupied Naco late yesterday, has refused to say whether he will support general Villa, whose representative he is supposed to be, or operate independently.

FORCES RAILROADS OF IOWA TO VIOLATE LAW

Curious Effect of Order Made in United States District Court in Chicago Compelling Liquor Carriage.

Chicago, Oct. 22.—A permanent injunction was issued today by Judge Carpenter of the United States district court restraining officials of the Chicago, Rock Island and Pacific railway company from refusing to accept and deliver consignments of liquor to points in Iowa and to agents of the consignees on the written order of the latter.

A plea against making the injunction permanent was made yesterday by U. A. Robinson, assistant attorney general of Iowa, on the ground that the court order compels the railroad officials to violate the law of the state of Iowa which directs that liquor consignments must be received by the consignees in person.

The order of the court provides that the consignees must designate the dryman or other carrier who is to receive the liquor and that the shipment must be marked for personal use and private consumption. The order also sets forth that the court decided that the state of Iowa was not entitled to the relief prayed in the petition of intervention.

A temporary injunction was granted six weeks ago.

BRAVE WOMAN SAVES HER RELATIVE'S LIFE BY NERVE

Takes Knife From Attacking Mexican Bandit and Flings It to Husband, Then Kills Another With Shotgun.

ANOTHER REGIMENT IS ORDERED TO DISTRICT

Army Doing All It Can, Say Officers, Until Texas Formally Asks for Military Protection by Government.

San Marcos, Tex., Oct. 22.—If Alfred Wilke, a Matamoros rancher, recovers from an attack last night by three Mexicans, he will owe his life to the bravery and physical prowess of a woman.

Miss Wilke, a relative, wrested a knife from one of the Mexicans and threw it to Wilke, who killed one of his attackers. Then, though suffering from a knife wound, she got a shot gun and killed one of the others. The third fled.

The Mexicans asked Wilke for work and when he refused shot him three times in the back. It was then that Miss Wilke came to his aid.

Wilke's condition is serious but he may recover. Miss Wilke's recovery is certain.

ANOTHER REGIMENT ORDERED TO BROWNVILLE DISTRICT

Washington, Oct. 22.—The 28th regiment of infantry has been ordered from Galveston to Brownsville, Texas, by the war department as a result of the renewal of bandit raids on Texas border towns.

The troops will be used by General Punnett to give added protection to small towns such as that at Ojo del Agua, where three soldiers were killed and eight wounded yesterday morning in a bandit attack.

The 23d infantry, now at Jacksonville, Fla., in connection with the national rifle matches there, will be returned to Galveston where it will be held in reserve for use on the border.

Officials explained today that the army was doing all it legally could do to check the border bandit raids. The situation, they said, was not a military one, but a civil one, under the jurisdiction of Texas. Unless the governor should formally ask federal intervention, there is no authority for the establishment of a military zone and declaration of martial law.

Army detachments guarding various towns may report attacks, but cannot go beyond that without additional authority. War department officials, however, will give every possible aid to the civil authorities in protecting towns and ranches.

Brownsville, Tex., Oct. 22.—An active campaign against bandits on the Mexican side of the Rio Grande by General Eugene Lopez, Carranza commander in Matamoros was promised today by Jose Z. Garza, Carranza consul here. Mr. Garza said General Lopez has requested more troops in order to handle the Mexican side of the trade.

Garza said investigation is under way of the reported appearance in Brownsville, Mexico, of Luis de la Rosa, Texas bandit leader, a few hours before the raid on an American soldier's camp at Ojo del Agua yesterday morning.

SEASON'S CROP OF FATALITIES AT HUNTING

Tacoma Minister Fatally Shot While Hunting Deer; Oregon Doctor Killed by His Own Gun.

Tacoma, Wash., Oct. 22.—Rev. James West, pastor of the First Baptist church here, was accidentally shot through the abdomen yesterday while deer hunting and is in a critical condition at a hospital here.

Ball Lake, Wis., Oct. 22.—L. P. Judd of Ball Lake this morning received a telegram from his son, Dell E. Judd of Wilson, Wis., dated yesterday, announcing that the body of Dr. Clayton Hanson had been found and that he had been killed by the accidental discharge of his own gun when attempting to climb over a log. The telegram gave no further particulars.

SMOKE REPORTED POURING FROM THE MOUNT HOOD CRATER

Portland, Ore., Oct. 22.—Reports from The Dalles, 21 miles north of Mount Hood, that smoke was seen rising from the mountain were under investigation by the forestry service today. The summit is hidden by clouds. Edith Cavell, a nurse, who has resigned the postmaster's duties, said she believed there had been seen above the peak and that smoke in the mountain steam that is less all the time. No eruption has been reported since one said to have occurred in 1893.

Mount Hood is 11,231 feet high.
